

Specified Disease Insurance

can pay money directly to you when you're diagnosed with certain serious illnesses.

How does it work?

If you're diagnosed with an illness that is covered by this insurance, you can receive a benefit payment in one lump sum. You can use the money however you want.

Why is this coverage so valuable?

- The money can help you pay out-of-pocket medical expenses, like co-pays and deductibles.
- You can use this coverage more than once. Even after you receive a payout for one illness, you're still covered for the remaining conditions or categories. If you have a different condition later, you can receive another benefit.

What's covered?

Category 1

- Heart attack
- Stroke
- Coronary artery disease (pays at 25% of lump sum benefit)

Category 2

- Benign brain tumor
- Major organ failure
- End stage renal (kidney) failure

Category 3

- Cancer coverage

Why should I buy coverage now?

- It's more affordable when you buy it through your employer.
- The cost is conveniently deducted from your paycheck.
- You can keep coverage if you leave the company or retire. You'll be billed at home.

Please refer to the policy for complete details about these covered conditions. Coverage may vary by state. See exclusions and limitations.

Effective date of coverage: Coverage becomes effective on the first day of the month in which payroll deductions begin. Employees must be legally authorized to work in the United States and actively working at a U.S. location to receive coverage. Spouses and dependent children must reside in the United States to receive coverage.
